Catalog No.	53-*-294R			
Grating Description	100 g/mm plane ruled reflection grating with a 3.87° nominal blaze angle			
Master No.	1696			
	Maximum Ruled Area:	groove length	154 mm	
		ruled width	206 mm	
Efficiency Curve	Spectral Order	m=1	Polarization(s)	S, P, Average
	Coating	Aluminum		
Remarks	Measured in Near Littrow			

Diffraction Grating Efficiency

Efficiency curves are only representative: actual efficiency may vary significantly depending on use geometry and measurement technique. This efficiency curve is for master 1696; two masters with the same catalog number may have different efficiency curves. The uncertainty band on the data in the above efficiency curve(s) is +/- three percentage points.
