

### Firmware Compatibility Table:

MODEL	SERIAL NUMBERS	FIRMWARE VERSION <sup>1</sup>	NEW FEATURE ELIGIBILITY <sup>2, 3</sup>
XPS-D	>= 22308106	<a href="#">XPS-D-USB N131xx</a>	Yes - receiving new features
XPS-D	<= 22308105	<a href="#">XPS-D-SATA N130xx</a>	No - legacy firmware
XPS-RLD	>= 22348036	<a href="#">XPS-RLD-USB N161xx</a>	Yes - receiving new features
XPS-RLD	<= 22348035	<a href="#">XPS-RLD-SATA N160xx</a>	No - legacy firmware
HXP50/ HXP50HA/ HXP50V6	>= 22362019		
HXP100/ HXP100HA/ HXP100V6	>= 22363008	<a href="#">HXP-D-USB N501xx</a>	Yes - receiving new features
HXP100P/ HXP100PHA	>= 23364002		
HXP200	>= 22365006		
HXP200S	>= 22366002		
HXP1000	>= 23367001		
HXP50/ HXP50HA/ HXP50V6	<= 22362018		
HXP100/ HXP100HA/ HXP100V6	<= 22363007	<a href="#">HXP-D-SATA N500xx</a>	No - legacy firmware
HXP100P/ HXP100PHA	<= 23364001		
HXP200	<= 22365005		
HXP200S	<= 22366001		
HXP1000	<= 22367001		

### NOTES:

1. If you try to install a snapshot that is not compatible with your controller, the installation will be aborted, and the controller will return to its pre-installation state.
2. The support of previous generation's snapshots (130xx, 160xx and 500xx) will continue but they will not be enhanced with new features.
3. Controllers must also have current PCIe boards to be compatible with the latest features. Please contact a Netport Technical Sales Representative for assistance determining compatibility if needed.
